Red November

A weekend of marxist politics and culture

Dealing with a fast-moving, ever-changing world is no easy thing—especially for the young who are in the firing line of the Government's attacks. If you think that understanding the complexities of a situation is the starting point, rather than proclaiming a second hand slogan, then Red November is for you.

Red November, organised by the Communist Party, is a weekend for young people to get down and do some serious thinking about the world we live in. There are courses on **CULTURE, WORK, MARXISM, FEMINISM, THE ECONOMY, REVOLUTION AND ROADS TO SOCIALISM**, lectures and discussions as well as films, videos and music.

Red November will look at what it means to call yourself a marxist in the light of the challenges to traditional thinking from the politics of race, gender, sexuality and ecology. What does socialism mean for you?

Date: *4-6 November*

Venue: *The Working Men's College, London N1*

This advertisement has been produced and paid for by supporters of the African National Congress. Formed in 1912, the ANC stands for a new South Africa, a South Africa where racism will be a thing of the past and where human dignity and equality will prevail in the life of the country and its people.

THE INJUSTICE OF APARTHEID

WHAT CAN YOU DO?

← Apartheid denies to the majority black population their most elementary human rights. Apartheid makes South Africa the only society in the world which discriminates in all its laws on the basis of race. Blacks are denied all political, economic and basic human rights. They are not allowed to vote. They cannot live where they choose. They are denied the enjoyment of family life.

In South Africa today, people - both black and white - are in open revolt against apartheid. Their courageous stand has led to widespread detention without trial, torture and more killings.

The problem seems enormous; it is. But every reader of this magazine can do something. If governments will not take action, then it is up to the people they are meant to serve to take action themselves.

Please **Send for Information**. We believe that people throughout the world have a right to know what is happening in South Africa. This is in contrast to the South African regime's ban on reporting current events. Return the coupon and we will gladly send you an information pack.

If you can **Make a Financial Contribution**. The ANC needs funds to continue running its schools and hospitals for refugees from the horrors of Apartheid. Publishing information to keep the world informed about South Africa is also an expensive business.

The people of South Africa need your help. Thank you for your attention. **”**

Marxism and the Interpretation of Culture

Edited by Cary Nelson and Lawrence Grossberg

"A major event in the discourse of cultural criticism of our time. In both the scope of the issues addressed and in the depth with which each issue is examined, this collection of essays demonstrates that dialectical materialism remains the intellectual strategy with which any socially engaged critical practice, Right, Left, or Center, must come to terms. This book is indispensable for any intellectual who wishes to comprehend the current condition, not only of Marxian theory, but of social and cultural criticism in general." — Hayden White, author of *Metahistory* and *Tropics of Discourse*.

Step Into Mew Worlds...

... with the improbable
Readers International

**Readers International
brings you today's
world literature.
Each hardcover volume,
by subscription,
is just £4.75**

(Regularly to £9.95).

RI is Good Books—some of the world's best new writing, from South Africa, Nicaragua, China, the USSR, India, Lebanon, and elsewhere.

RI is a Good Cause—most RI titles have suffered censorship at home or were written in exile.

Improbable? RI is an independent press (with no connection to any mega-publisher) that searches out and brings to your doorstep the world's most gifted writers.

RI's editors select vital new voices from around the world. Improbable? RI introduced black South African Njabulo Ndebele. His *Fools*, says *USA Today*, "stands with Joyce's *Dubliners*." Now sold out but reprinted in paperback for this offer.

And the exiled Iranian Hadi Khorsandi, whose *The Ayatollah and I* delighted just about everybody but the mullahs. And the impertinent Ludvfk Vaculfk, author of *A Cup of Coffee with My Interrogator*, whom the *L.A. Times* called "the night watchman for the Czech national soul."

This is eye-opening, riveting reading. A must for readers with a keen interest in world affairs and good books.

How good? "With each new offering," says the *Washington Post*, "RI's list becomes more impressive." And RI's books are well-made: "RI's quality of production is first-class. Many wealthier publishers could learn from them." (*The Guardian*)

The price is pretty improbable too: for just £4.75 each, every other month you get a handsome, hardcover edition of our newest title.

Step into new worlds with RI, worlds seen more clearly, stories told more freshly than in any press or TV report. RI, says the *Financial Times*, is "a splendid and important enterprise and worth supporting."

Take that step now. You'll probably enjoy it.
